

3 Junction Types to fit your application needs :

PTFE junction medium particles/fibers in process , double junction and Ion Trap

Open Pore reference (no junction) for High load of particles/fibers in process

Ceramic reference junction for samples without fibers and particles

Detachable cables: Models for S8 and VarioPin connectors

Choose standard (100°C) or high temperature (130°C) models

Choosing a sensor that is well-suited for your application will improve measurement accuracy and extend sensor lifetime. Glass body sensors perform well in unpredictable chemical environments due to the inert properties of glass. PTFE junction resists clogging and coating for stable readings and minimal cleaning in most applications.

GT100 series (Basic): The GT100 series glass pH sensor is easy to use and performs reliably in applications such as hydroponics, gardening, and education.

GT200 and GT300 series (High Temperature): The GT200 series are great for testing samples with high temperatures such as industrial wastewater. A double salt ring reference design ensures constant reference concentration for increased stability over time.

Temperature Range	-5 to 100°C (23 to 212°F)	Temperature Range	-5 to 130°C (23 to 266°F)	Temperature Range	-5 to 130°C (23 to 266°F)
Temp Comp*	See order table	Temp Comp*	Pt100 or Pt1000	Temp Comp*	Pt100 or Pt1000

*Choose Pt1000 for use with Sensorex transmitters

ORDERING INFORMATION

Part Number	Description
GT100	Glass body pH electrode, single junction, 120 mm x 12 mm, VarioPin connector
GT101	Glass body pH electrode, single junction, 120 mm x 12 mm, S8 connector
GT111	Glass body pH electrode, double junction, 120 mm x 12 mm, S8 connector
GT160	Glass body High-temp pH/ATC electrode, single junction, 120 mm x 12 mm, VarioPin connector, Pt100 Temp Comp
GT165	Glass body High-temp pH/ATC electrode, single junction, 120 mm x 12 mm, VarioPin connector, Pt1000 Temp Comp
GT200	Glass body High-temp pH electrode, double junction, 120 mm x 12 mm, VarioPin connector
GT260	Glass body High-temp pH/ATC electrode, double junction, 120 mm x 12 mm, VarioPin connector, Pt100 Temp Comp
GT265	Glass body High-temp pH/ATC electrode, double junction, 120 mm x 12 mm, VarioPin connector, Pt1000 Temp Comp
GT300	Glass body High-temp pH/ATC electrode, double junction, 225 mm x 12 mm, VarioPin connector
GT360	Glass body High-temp pH/ATC electrode, double junction, 225 mm x 12 mm, VarioPin connector, Pt100 Temp Comp
GT365	Glass body High-temp pH/ATC electrode, double junction, 225 mm x 12 mm, VarioPin connector, Pt1000 Temp Comp

Cables

GTC-V/1	VarioPin Cable 1 meter, tinned leads
GTC-V/3	VarioPin Cable 3 meter, tinned leads
GTC-V/5	VarioPin Cable 5 meter, tinned leads
GTC-V/10	VarioPin Cable 10 meter, tinned leads
GTC-S/1	S7 Cable 1 meter, tinned leads
GTC-S/3	S7 Cable 3 meter, tinned leads
GTC-S/5	S7 Cable 5 meter, tinned leads
GTC-S/10	S7 Cable 10 meter, tinned leads
